

CONTROLLING ENTRY TO THE COOP – A WAY THAT IS FAIR AND LEGAL

April 9, 2020

We should not be lining people up on the sidewalk, even if they are 6 feet apart. It is a public health hazard and unfair for members who cannot stand for extended periods of time.

Two recommendations:

- 1) Have members call in (or go online) and select a shopping time. Each household can shop at the Coop once every two weeks. Members have an hour to shop and must arrive within ten minutes of their scheduled time.
- 2) Members who want to show up “a large” can sign in with their phone number and get a text when there is room in the Coop. They have ten minutes to get to the door to enter; they also have an hour to shop. Shopping “at large” does not count against a household’s once-every-two-week rule.

That’s it. My daughter said it’s good idea; maybe you’ll even use it?
