

SHOPPING THE AFRICAN DIASPORA

April 5, 2022

I loved the article about items from the African diaspora on the Coop's shelves.

Please, I'd love to see more articles like this, highlighting items grouped together by theme. There's so much great stuff at the Coop and sometimes as a shopper, I go in with my list and I don't always have time to browse, or I miss things in sections where

I don't normally look. I look forward to trying some of the products highlighted in this article, and would welcome more suggestions themed by type of cuisine or culture of origin.
